Part I

Standard Uitvoer

1 Matrix Bewerkingen

This group of jobs deal with various matrix handling techniques.

1.1 Fratar Methode

1.1.1 Purpose

Some text explaining what the code does.

1.1.2 Inputs

Following are the inputs to this job.

1.1.3 Outputs

Following are the outputs to this job.

1.1.4 Code

Download the code.matrixcompress.rb

1.2 Matrixritten op basis van voorbeeldzone

1.3 Purpose

Some text explaining what the code does.

1.4 Inputs

Following are the inputs to this job.

1.5 Outputs

Following are the outputs to this job.

1.6 Code

Download the code.matrixcompress.rb

1.7 Percentage groei ten opzichte van voorbeeldzone

1.8 Purpose

Some text explaining what the code does.

1.9 Inputs

Following are the inputs to this job.

1.10 Outputs

Following are the outputs to this job.

1.11 Code

Download the code.matrixcompress.rb

2 Matrix Compressies

2.1 Purpose

Some text explaining what the code does.

2.2 Inputs

Following are the inputs to this job.

2.3 Outputs

Following are the outputs to this job.

2.4 Code

Download the code.matrixcompress.rb

3 Voertuigprestaties

3.1 Purpose

Some text explaining what the code does.

3.2 Inputs

Following are the inputs to this job.

3.3 Outputs

Following are the outputs to this job.

3.4 Code

Download the code.matrixcompress.rb

4 Thermopunten

4.1 Purpose

Some text explaining what the code does.

4.2 Inputs

Following are the inputs to this job.

4.3 Outputs

Following are the outputs to this job.

4.4 Code

Download the code.matrixcompress.rb

5 Skim Matrix Exports

5.1 Purpose

Some text explaining what the code does.

5.2 Inputs

Following are the inputs to this job.

5.3 Outputs

Following are the outputs to this job.

5.4 Code

Download the code.matrixcompress.rb

6 Bereikbaarheid

6.1 Purpose

Some text explaining what the code does.

6.2 Inputs

Following are the inputs to this job.

6.3 Outputs

Following are the outputs to this job.

6.4 Code

Download the code.matrixcompress.rb

7 Selected Link Compress

7.1 Purpose

Some text explaining what the code does.

7.2 Inputs

Following are the inputs to this job.

7.3 Outputs

Following are the outputs to this job.

7.4 Code

Download the code.matrixcompress.rb

8 INEXDO

8.1 Purpose

Some text explaining what the code does.

8.2 Inputs

Following are the inputs to this job.

8.3 Outputs

Following are the outputs to this job.

8.4 Code

Download the code.matrixcompress.rb

9 Milieu(Goudappel)

9.1 Purpose

Some text explaining what the code does.

9.2 Inputs

Following are the inputs to this job.

9.3 Outputs

Following are the outputs to this job.

9.4 Code

Download the code.matrixcompress.rb
